My Yard Counts
Pet-Wildlife Interactions Data Sheet

Use this data sheet to record information about pet-wildlife interactions in your yard. "Pet" refers to a domesticated species, such as cats and dogs, that are strays (feral pets) or that belong to you or your neighbors. In late August you will receive an email with a weblink to a site for you to enter these data online.

Date	Type of pet Dog, Cat	Type of wildlife Bird, Mammal, Reptile, Amphibian (if known, record species and age) A=adult, J= juvenile, N=nestling	Interaction (e.g., birds mobbing pet, failed attack by pet, etc.)	Outcome (e.g., bird escaped with injuries, mammal dead, etc)	How Discovered (e.g., found remains, observed attack)	Comments
