## Be a CamClickr!

**The Cornell Lab of Ornithology has placed live cameras at active bird nests all around the country. Since 1999, we've archived more than eight million images from these NestCams.**

By using the CamClickr online tool to help tag and sort the NestCams images, you can help scientists learn more about the nesting behavior of birds and how they are responding to challenges in their environment. You will enjoy learning about nesting birds while testing your online gaming skills!

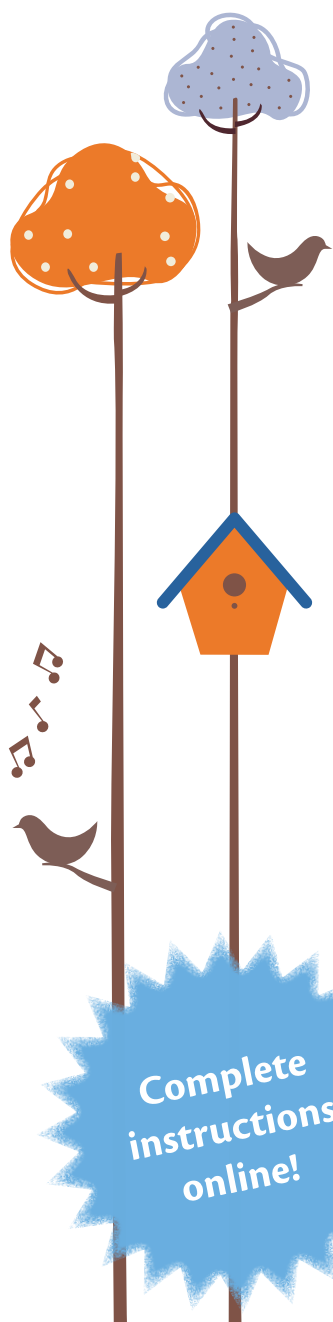

### Create a CamClickr Account Today!

This allows you to chat in the NestCam forums, tag photos, and track your stats in CamClickr anytime.

- View the images and sort them into albums, then tag each image by type of behavior you see: preening, eating, feeding chicks, etc.
- Check your rankings in "my sessions"
- Follow the latest Twitter feeds
- Use the new Lesson Plan for Educators, appropriate for all ages
- Watch videos of fascinating nesting behavior

**Collect points and compete for prizes such as binoculars, DVDs, books, and posters, when you help sort and tag the camera images.**
