Project FeederWatch

Rare Bird Form

Snowy Owl
by Louis Agassiz Fuertes

Use this form to document rare bird species that you observe in your Count Site during the FeederWatch season. Read page 6 for instructions on how to document your sighting so that it may become part of the scientific record. Tuck this completed form and any sketches or photos inside your Data Booklet, and return them to FeederWatch after your last count.

FeederWatch season _____ Your FeederWatch ID _____

Name _____

Address _____

City, State/Prov., Zip/PC _____

E-mail address _____

Bird species _____

Dates observed _____

Were any of these Count Dates? Yes ❑ No ❑ If so, did you submit your sighting on a Data Form? Yes ❑ No ❑

Describe overall size and shape of bird (compare with other species present):

Describe plumage and other field marks used in your identification:

Describe any behaviors or vocalizations that helped in your identification:

Explain why you consider this bird rare in your area:

Any other notes or comments:

A picture is worth a thousand words. If possible, please include a sketch, photograph, or video. We may publish your photos or sketches in our materials or reports and credit them with your name, city, and state or province.

For office use only.
